Different markets need different solutions.

Our Main Series

Traditional Iron Padlock

Stainless Steel Padlock

Custom padlocks

Heavy Duty Padlock

Factory Test – Real Result

We test before shipment.

Same lock, different risk. help wholesalers avoid losses

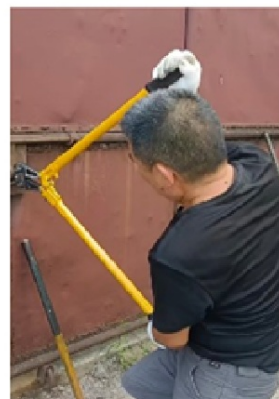

Some importers miss this.

Lever test

Hammer test

Rebar shear test

Fire test

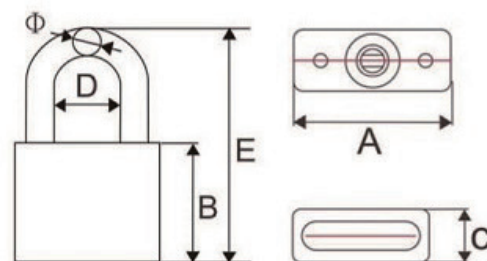

SUS304-1

- 
High quality top security padlock
 The right material, design and production methods
- 
Stainless steel double-ball shackle locking, equipped with stainless steel/alloy steel shackle
- 
Material
 Body: 304 stainless steel
 Shackle: 304 stainless steel
- 
Weather proof, for extreme corrosion resistance
- 
Finish
 Mirror polish, strip polish
- 
Does not contain springs or pins that can jam for higher security and longer usage
- 
Key
 Reversible nickel silver key with plastic key head, also available in all nickel silver and stainless steel with plastic key head
- 
Cylinder Options
 Keyed different, keyed alike, master and differ, master and alike
- 
Application
 Extra high security padlock, for general use

Applications

- Suitable for train wagons, trucks, containers, heavy sliding doors, high-end security places, etc.
- Especially for the extreme environment like coastal areas, hot areas and places of freezing conditions
- With super high antioxidant and anti-theft functions, high efficiency and humanized management.
